

Sowing the Seeds

On March ____ 2011 Episcopal Day School and LSU Coastal Roots Program joined together to sow ____ seeds at The Lacassane Company's Greenhouse. Located in Lake Arthur the Greenhouse not only offered the children an opportunity to restore the historical grounds, but to learn a little architectural history of southern homes.

Wax Myrtle
Lustrous green leaves in the Spring, turning darker in the summer, and are aromatic when crushed. Wildlife love this tree!

Produces a berry in the fall/winter months, as seen in the photo on the right.
